PUMP ROOM SPECIFICATIONS

SEND US YOUR PUMP ROOM SPECIFICATIONS

Use this guide if you are submitting by email instead of the Engineer Portal.

WHAT WE NEED

1

Pump Room ID

Name or number each pump room and note where it is in the building.

2

Pool assignments

The pools and spas each pump room serves, with volume and water type.

3

Return line specifications

For each pool: every return line, its pipe size, flow, material and straight run.

RETURN LINE SIZING REFERENCE

PIPE SIZE nominal	DN metric nominal	MEASURES ACROSS outside, inches	MEASURES ACROSS outside, mm	METRIC PIPE STAMP PVC, approx.	STRAIGHT RUN inches	STRAIGHT RUN mm
2″	DN50	2⅜″	60 mm	d63	about 28″	about 710
3″	DN80	3½″	89 mm	d90	about 32″	about 810
4″	DN100	4½″	114 mm	d110	about 36″	about 920
6″	DN150	6⅝″	168 mm	d160	about 48″	about 1,220
8″	DN200	8⅝″	219 mm	d225	ask AquaRev	—

Metric equivalents are approximate. Record pipe sizes exactly as stamped, in inches or mm.

HOW TO SEND IT

EMAIL TO

`water@aquarevwater.us`

SUBJECT

`Pump room specifications: [property]`

ATTACH

The completed form, plus photos and a walkthrough video of each pump room. Large files: share a link.

Prefer the Engineer Portal? Capture and send everything from your phone at aquarevwater.us/calculator. To request access, email water@aquarevwater.us with your name, company, property and mobile number.
